ANNUAL REPORT

2022

About Us

With over 600,000 members worldwide and over 1 million Project Management Professionals (PMP®), The Project Management Institute (PMI) is the largest and leading non-profit professional association in the area of Project Management.

The Project Management Institute Inc. (PMI Manitoba) is the local chapter of the Project Management Institute in the province of Manitoba.

OUR MISSION

To inspire change, transformation, innovation, and growth in Manitoba communities through the transformative power of projects, by:

- Being the local advocate of the world-class organization and brand of the Project Management Institute.
- Developing a local community of like-minded, motivated, passionate, and empowered project professionals and changemakers

MESSAGE FROM OUR PRESIDENT

On behalf of the Board of Directors of PMI Manitoba, I would like to thank our members, volunteers, sponsors, and partners for another successful year.

As the chapter approaches its 30th anniversary, our focus at PMI Manitoba is to continue to operate sustainably, while being adaptable and flexible to meet the needs of our members today and into the future.

For that reason, this year PMI Manitoba has focused on increasing value to our members through continuous investments in membership benefits, and to continue to offset the impact the COVID-19 pandemic had on our previous member programming.

The chapter's finances are in a strong surplus position due to consecutive years of low spending due to the pandemic. The Board of Directors has made it clear that a priority is for that surplus to be invested in our member services. Recently, our chapter has announced that all virtual monthly meetings and in-person networking events in 2023 will be available at no cost to members. This renewed focus will ensure that more members continue to benefit by attending and networking at our events. At PMI Manitoba, we recognize that our strength is in the size and quality of our network of project professionals.

In 2022, the chapter also developed a new Mission, Vision, and Values to guide the next 30 years of the chapter. As we look forward into the future, the chapter is investing in new ways to attract, engage and retain members. This includes our Projects for Social Good program, Women in Project Management initiative, the Student Engagement Strategy, a Career Fair, participation in trade shows, increasing the construction industry participation, and other initiatives that will impact the make-up of our membership for the years to come.

PMI is on a mission to change the world through the transformative power of projects and be a force for good in society. At PMI Manitoba, we truly live by this mission and have started the process to align our "north star" and operations to continue to support project professionals and changemakers throughout their career journeys.

On a personal note, after a decade of service to the chapter, this coming year will mark my last as a board member at PMI Manitoba. I am lucky to be transitioning to our President-Elect Rafael Vitorelli, whom I have worked with very closely with for the past 7 years. I have high confidence that I leave the chapter in great hands, as Rafael is passionate and committed about the chapter and helping project professionals achieve their professional and personal goals.

Sincerely,

**Juan Saldivar, P.Eng., PMP, DASM, OTF
President**

Project Management Institute Manitoba Chapter

MESSAGE FROM OUR VICE PRESIDENT, OPERATIONS (PRESIDENT-ELECT)

It has been 7 years since I started volunteering for PMI Manitoba. As an international student and immigrant, I am thankful for the Project Management Community here in Manitoba. We are strong project management professionals and change makers. Our community is changing the world one project at a time.

During the COVID-19 pandemic, we moved to a fully virtual organization and in the process revamped our mission, vision and values to continue empowering change makers and our community in this fast-changing world. Despite the many challenges we have faced throughout 2021, 2022 and 2023, the PMI Manitoba Chapter, its members and our sponsors keep marching to further support and develop our community.

To support the community so effectively for as long as we have means that change at PMI Manitoba and the project management profession is a constant. As the needs of the profession change, so must PMI Manitoba.

More changes are to come and our Chapter will be here to support change-makers and project management professionals alike in our beautiful and sunny province. I am profoundly connected with our PMI Manitoba.

My immigrant journey to become a Canadian Citizen was covered with project management professionals' support and PMI Manitoba's help. I remember, as if it was yesterday, when Juan Saldivar, our bold and empathetic President, accepted my request to go for a coffee chat. We met in downtown Winnipeg. That was the beginning of an amazing journey for me. Juan hired me to help our Chapter by posting news and events on the PMI Manitoba website. From there, I applied for the Associate Governance Director and ran board meetings and meeting minutes monthly.

Juan was the best mentor one could ask for. He also became my employment reference here in Canada. Thanks to his support and PMI Manitoba's community, I was able to land my first job as an IT Project Manager here in Manitoba while volunteering for PMI Manitoba as an Associate Governance Director. The Associate Director position not only helped me see where the magic happened and how the board was governed, but it also opened my eyes to the value that project management professionals and change makers can bring when they are together and united.

In March 2019 I applied and was voted to become an official board member. My first board position was the Director of Governance, responsible for bylaws changes, board meetings and Chapter governance. Once again, the project management community and PMI Manitoba opened my eyes and broadened my experience. In the interim, I held project and portfolio management positions from Project Manager to Senior Project Manager, Portfolio Manager and Portfolio Director. All of that was possible because of my involvement with the project management profession and our community. We are strong together.

I truly believe that we make each other stronger, and more marketable while the project management profession gains visibility – it is a win-win game. More and more industries see and understand the value proposition of the project management profession. And that is thanks to you, to us, to the engagement and knowledge sharing and love for the profession.

Let's keep connected, let's keep the change makers engaged here in Manitoba and change the world one project at a time.

Sincerely,

Rafael Vitorelli, PMP
